    // ===== STEP 1: ANALYZE VIDEOS =====
    const analyzePrompt = `You are an expert at analyzing viral TikTok content patterns.

Below are ${chosen.length} real viral TikTok videos selected by a social media manager.
Analyze each video deeply:

${richSummaries}

For EACH video, analyze:
1. FORMAT: What viral format is this? (POV skit / Types of... / When customer... / Day in the life
/ Acting normal when / Relatable reaction / Other)
```

```
2. STRUCTURE: How is the video built? (setup → twist → punchline? slow build? rapid cuts? etc.)
3. HUMOR STYLE: What makes it funny? (absurd situation, deadpan delivery, escalation, contrast, relatable pain, awkward silence, etc.)
4. CHARACTERS: Who appears? (employee, customer types, boss, etc.)
5. PUNCHLINE: Where is the humor peak? (end twist, mid-video flip, running gag, etc.)
6. PACING: Fast/slow? How many beats/scenes?
7. HOOK: What makes someone stop scrolling in the first 2 seconds?

Then provide an OVERALL PATTERN SUMMARY:
- What do these videos have in common?
- What viral formula connects them?
- What tone/energy do they share?

Respond in Hebrew.`;

    const analysis = await callClaude(analyzePrompt);
    state.videoAnalysis = analysis;

    // ===== STEP 2: GENERATE SCRIPTS BASED ON ANALYSIS =====
    setGenStep(2);

    const generatePrompt = `You are a viral TikTok scriptwriter for Israeli small businesses.

BUSINESS:
- Name: ${name}
- Type: ${state.industry?.label}

VIRAL VIDEO ANALYSIS (from real TikTok videos the client chose as reference):
${analysis}

ORIGINAL VIDEO DATA:
${richSummaries}

Based on the SPECIFIC patterns, formats, humor styles, and structures identified in the analysis above, create 6 short Hebrew comedy scripts (15-25 seconds each).

CRITICAL RULES:
- Each script MUST mimic the EXACT style of the analyzed videos — same structure, same type of humor, same pacing
- Use the same viral formats found in the analysis (POV, Types, etc.)
- Match the hook style — whatever works in the first 2 seconds of those videos, replicate it
- Match the punchline placement — if videos end with a twist, so should scripts
- The business name "${name}" should appear naturally, not forced
```

```
- All dialogue in Hebrew, casual and authentic
- Each script should be a DIFFERENT variation inspired by the patterns

Use EXACTLY this format for each:
---SCRIPT---
TITLE: [כותרת קליטה]
FORMAT: [הפורמט הויראלי שזוהה]
INSPIRED_BY: [איזה סרטון מקורי השפיע על התסריט הזה]
HOOK: [מה קורה ב-2 שניות הראשונות]
SCRIPT:
[דיאלוג מלא בעברית עם הנחיות במשחק]
CAPTION: [כיתוב + האשטאגים]
---END---`;

BUSINESS: ${state.bizName}
INDUSTRY: ${state.industry?.label}

AVAILABLE SCRIPTS:
${scriptsList}

Create a 7-day content calendar (Sunday to Saturday) for this business.
For each day, assign 1-2 content slots with:
- Which script to use (or create a bonus idea)
- Best posting time for Israel (specific hour)
- Which platform (TikTok, Instagram Reels, Instagram Stories, or Facebook)
- A brief note on what to focus on

Also add 1-2 "rest days" where the business only posts a Story or doesn't post.

RESPOND ONLY IN VALID JSON, no markdown, no backticks:
{"days":[{"day":"ראשון","slots":[{"time":"10:00","platform":"TikTok","title":"שם התסריט","note":"הערה
קצרה"}]}]}`;
